Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3 and 5-11, drawn to a method of combination therapy for treatment of a subject having Fabry disease comprising an enzyme replacement therapy and a small molecule therapy, classified in 514, subclass 12/2.
- II. Claims 1 and 4-6, drawn to a method of combination therapy for treatment of a subject having Fabry disease comprising a gene therapy and an enzyme replacement therapy, classified in 514, subclass 44/12.
- III. Claims 1, 4 and 5-11, drawn to a method of combination therapy for treatment of a subject having Fabry disease comprising a gene therapy and a small molecule therapy, classified in 514, subclass 44/2.

The inventions are distinct, each from the other because:

Groups I-III are distinct from each other because they are drawn to materially different methods using compositions having different chemical structures, physical properties and biological functions: an enzyme and a small molecule, a transgene and an enzyme, or a transgene and a small molecule, respectively, which differ at least in reagents and/or dosages, method steps, schedules used, response variables, criteria for success, and require separate search. Thus, groups I-III are patentably distinct from each other.

Art Unit: 1632

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, because of their recognized divergent subject matter, and the search required for any group is not required for remaining groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).)

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
